

Forest Service, USDA

§ 220.2

management systems and outlines the elements of an environmental management system.

Newspaper(s) of record: The principal newspapers of general circulation annually identified and published in the FEDERAL REGISTER by each regional forester to be used for publishing notices as required by 36 CFR 215.5. The newspaper(s) of record for projects in a plan area is (are) the newspaper(s) of record for notices related to planning.

Plan: A document or set of documents that integrates and displays information relevant to management of a unit of the National Forest System.

Plan area: The National Forest System lands covered by a plan.

Productivity: The capacity of National Forest System lands and their ecological systems to provide the various renewable resources in certain amounts in perpetuity. For the purposes of this subpart it is an ecological, not an economic, term.

Public participation: Activities that include a wide range of public involvement tools and processes, such as collaboration, public meetings, open houses, workshops, and comment periods.

Responsible official: The official with the authority and responsibility to oversee the planning process and to approve plans, plan amendments, and plan revisions.

Reviewing officer: The supervisor of the responsible official. The reviewing officer responds to objections made to a plan, plan amendment, or plan revision prior to approval.

Species-of-concern: Species for which the responsible official determines that management actions may be necessary to prevent listing under the Endangered Species Act.

Species-of-interest: Species for which the responsible official determines that management actions may be necessary or desirable to achieve ecological or other multiple use objectives.

Timber harvest: The removal of trees for wood fiber use and other multiple-use purposes.

Timber production: The purposeful growing, tending, harvesting, and regeneration of regulated crops of trees to be cut into logs, bolts, or other

round sections for industrial or consumer use.

Visitor opportunities: The spectrum of settings, landscapes, scenery, facilities, services, access points, information, learning-based recreation, wildlife, natural features, cultural and heritage sites, and so forth available for National Forest System visitors to use and enjoy.

Wilderness: Any area of land designated by Congress as part of the National Wilderness Preservation System that was established in the Wilderness Act of 1964 (16 U.S.C. 1131–1136).

Subpart B [Reserved]

PART 220—NATIONAL ENVIRONMENTAL POLICY ACT (NEPA) COMPLIANCE

Sec.

220.1 Purpose and scope.

220.2 Applicability.

220.3 Definitions.

220.4 General requirements.

220.5 Environmental impact statement and record of decision.

220.6 Categorical exclusions.

220.7 Environmental assessment and decision notice.

AUTHORITY: 42 U.S.C. 4321 *et seq.*; E. O. 11514; 40 CFR parts 1500–1508; 7 CFR part 1b.

SOURCE: 73 FR 43093, July 24, 2008, unless otherwise noted.

§ 220.1 Purpose and scope.

(a) *Purpose.* This part establishes Forest Service, U.S. Department of Agriculture (USDA) procedures for compliance with the National Environmental Policy Act (NEPA) of 1969 (42 U.S.C. 4321 *et seq.*) and the Council on Environmental Quality (CEQ) regulations for implementing the procedural provisions of NEPA (40 CFR parts 1500 through 1508).

(b) *Scope.* This part supplements and does not lessen the applicability of the CEQ regulations, and is to be used in conjunction with the CEQ regulations and USDA regulations at 7 CFR part 1b.

§ 220.2 Applicability.

This part applies to all organizational elements of the Forest Service.

§ 220.3

Consistent with 40 CFR 1500.3, no trivial violation of this part shall give rise to any independent cause of action.

§ 220.3 Definitions.

The following definitions supplement, by adding to, the terms defined at 40 CFR parts 1500–1508.

Adaptive management. A system of management practices based on clearly identified intended outcomes and monitoring to determine if management actions are meeting those outcomes; and, if not, to facilitate management changes that will best ensure that those outcomes are met or re-evaluated. Adaptive management stems from the recognition that knowledge about natural resource systems is sometimes uncertain.

Decision document. A record of decision, decision notice or decision memo.

Decision memo. A concise written record of the responsible official's decision to implement an action categorically excluded from further analysis and documentation in an environmental impact statement (EIS) or environmental assessment (EA).

Decision notice. A concise written record of the responsible official's decision when an EA and finding of no significant impact (FONSI) have been prepared.

Environmentally preferable alternative. The environmentally preferable alternative is the alternative that will best promote the national environmental policy as expressed in NEPA's section 101 (42 U.S.C. 4321). Ordinarily, the environmentally preferable alternative is that which causes the least harm to the biological and physical environment; it also is the alternative which best protects and preserves historic, cultural, and natural resources. In some situations, there may be more than one environmentally preferable alternative.

Reasonably foreseeable future actions. Those Federal or non-Federal activities not yet undertaken, for which there are existing decisions, funding, or identified proposals. Identified proposals for Forest Service actions are described in § 220.4(a)(1).

Responsible official. The Agency employee who has the authority to make

36 CFR Ch. II (7–1–09 Edition)

and implement a decision on a proposed action.

Schedule of proposed actions (SOPA). A Forest Service document that informs the public about those proposed and ongoing Forest Service actions for which a record of decision, decision notice or decision memo would be or has been prepared. The SOPA also identifies a contact for additional information on any proposed actions.

§ 220.4 General requirements.

(a) *Proposed actions subject to the NEPA requirements.* As required by 42 U.S.C. 4321 *et seq.*, a Forest Service proposal is subject to the NEPA requirements when all of the following apply:

(1) The Forest Service has a goal and is actively preparing to make a decision on one or more alternative means of accomplishing that goal and the effects can be meaningfully evaluated (*see* 40 CFR 1508.23);

(2) The proposed action is subject to Forest Service control and responsibility (*see* 40 CFR 1508.18);

(3) The proposed action would cause effects on the natural and physical environment and the relationship of people with that environment (*see* 40 CFR 1508.14); and

(4) The proposed action is not statutorily exempt from the requirements of section 102(2)(C) of the NEPA (42 U.S.C. 4332(2)(C)).

(b) *Emergency responses.* When the responsible official determines that an emergency exists that makes it necessary to take urgently needed actions before preparing a NEPA analysis and any required documentation in accordance with the provisions in §§ 220.5, 220.6, and 220.7 of this part, then the following provisions apply.

(1) The responsible official may take actions necessary to control the immediate impacts of the emergency and are urgently needed to mitigate harm to life, property, or important natural or cultural resources. When taking such actions, the responsible official shall take into account the probable environmental consequences of the emergency action and mitigate foreseeable adverse environmental effects to the extent practical.
